Subject: Proposed times to discuss RI/FS Schedule for Leviathan

Hi Dana,

Thank you for taking my phone call today. Below are some proposed times for a longer conversation on EPA's April 4th letter regarding the RI/FS schedule for Leviathan.

Friday (April 7th) – anytime between 10 a.m. and 3 p.m.

Tuesday (April 11th) – 9 a.m., 10 a.m., 2 p.m., 3 p.m.

If these times do not work, please propose a few times that will work and I will try to adjust my schedule. I'm hoping we can talk sooner rather than later since you requested a formal response to the letter within 30 days. As I mentioned, I'm completely surprised by the contents of the letter and feel it is critical for us to have a common understanding on a path forward for the site. Thank you and I look forward to talking with you and Caleb.
